WHAT SHOULD YOU DO WHEN RETURNING HOME AFTER AN EVACUATION:

- Pay attention to any directions given by local authorities
- Pack some supplies, like bottled water, flashlight, garbage bags, closed toed-shoes, a first-aid kit, gloves
- Walk the perimeter. Take note of any out-of-place wiring, gas smells or loose debris. If you notice downed power lines or a gas smell contact BC Hydro or Fortis before entering your house.
- Enter your house carefully and check the main power breaker
- When in doubt, throw it out. Food and drinks may need to be tossed when you return home, especially due to the frequent power outages in the area.
- Photograph any damage. This can help with home insurance claims.
- Contact your insurance broker regarding damage or additional expenses that may be covered.
