## About

This letter is an invitation to the public to provide comments regarding a proposed wireless communication facility to be located on private property at 4438 Eagle Bay Road, Eagle Bay, BC (PID: 005-444-683) at the coordinates: 50.928033° N, 119.242240° W.

Rogers Communications Inc. (“Rogers”) is proposing an installation which consists of a lattice self-support tower wireless communications facility and fenced equipment compound. Once completed, the antenna system will measure 48.0 metres in height. The tower will have up to eight antennas located on it. Innovation, Science and Economic Development Canada (ISED), formerly Industry Canada, is responsible for the approval of these antenna system and requires Rogers to consult with the nearby public and local municipality.

Rogers strives to improve coverage and network quality to remain the leading wireless provider in Canada. Rogers has become aware of the need to improve services to portions of Eagle Bay.

## Proposed Tower Location
