

UPDATE TO PROVINCIAL OFFER

A number of roads were missed in our offer letter to the incorporation committee but MoTI will be resurfacing these roads within 5 years of incorporation if they successfully incorporate. We will be resurfacing all portions of existing hard surface roads listed as poor and very poor in Appendix A of the Urban Systems report dated December

16th 2020.

The total additional road resurfacing (those included as additional in the offer and those that were missed) is approximately 13.4km on top of our existing resurfacing plans (which were identified already in the offer). The total value is now approximately \$1.5 million up from the 700K identified in the original offer letter.
